

### **AMENDMENTS TO THE SPECIFICATION**

Please amend replace paragraph [0012] with the following amended paragraph:

To achieve the objects of the present invention, there is provided acrylic polymer beads for automobile having an average particle diameter of 0.2 to 0.5  $\mu\text{m}$ , a standard deviation of particle diameter of 1 to ~~[[20]]~~12% with respect to the average particle diameter as measured with a Submicron Particle Sizer in an emulsion obtained by emulsion polymerization, and the final average particle diameter of 10 to 100  $\mu\text{m}$ .
